

Managing safety with a secure fit

Steering Wheel Safety Cover

Need to repair or service mobile equipment? Let everyone know with a visual barrier, like the **Steering Wheel Safety Cover**. It quickly indicates which forklifts, electric pallet jacks, construction equipment or fleet vehicles are down for service and should not be operated. The brightly coloured cover fits over a steering wheel and requires only a padlock, not a hasp like most competitive options.

- Highly visible deterrence to ensure safety protocols are followed during forklift and vehicle maintenance
- Secure fit over the steering wheel and is secured with one padlock (no hasp needed)
- 3 size options available to suit various wheel diameters, plus can be used with BatteryBlock™ products

Part no.	Cover Size	Max. Shackle Size	UOM
151874	304 mm (12 inch) Diameter	7.1 mm	Each
151875	406 mm (16 inch) Diameter	7.1 mm	Each
