

Permanent ID Tags 316 Stainless Steel

www.bradyid.com.au

Pre-printed permanent ID tags manufactured from quality 316 stainless steel and suited to hazardous, aggressive and fire rated environments. Brady saves you time and hassle with a fast turnaround service and delivers your tags in the sequence you sent the data.

The table below shows the three lengths available and the maximum number of laser etched characters. Our data template will help you determine which tags fit your requirements.

Part No.	L Length (mm)	C Length (mm)	T Thickness (mm)	B Thickness (mm)	Characters Maximum*
876405	70	51	0.5	2.25	12
876406	90	71	0.5	2.25	19
876407	110	91	0.5	2.25	25

Accessories:

An extensive range of coated and uncoated 316 stainless steel cable ties are available to suit these ID tags.

How to order:

Simply select the tag length, populate the spreadsheet template with the data to be printed and send to your local Brady distributor. The data template is available on request or can be downloaded from our website.
